

REMARKS

Claims 1-, 29 and 30 are currently pending and allowed. The Specification has been amended. New Figure 16 has been added. No new matter has been introduced.

Drawings

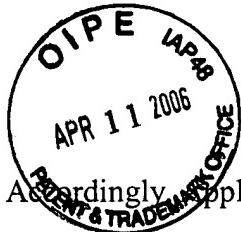

The Examiner has objected to the Drawings as originally filed under 37 CFR 1.83(a), taking the position that the drawings do not show all the features of claims 1 and 29. Accordingly, the Examiner requests corrected drawings.

Accordingly, the Drawings have been amended to add new Figure 16 (attached hereto) which clarifies the features set forth by the Examiner. Support for this figure is found in the Claims 1 and 29 and in the Specification as originally filed, on page 20. Applicant respectfully submits that these amendments comply with the Examiner's requirements.

In light of the above, Applicant respectfully submits that the Drawings are now acceptable and that the Examiner's objections should be withdrawn.

Specification

Applicant has amended the specification herein to reference Figure 16.

CONCLUSION

Accordingly, Applicants respectfully submit that the Drawings are now in compliance with 37 CFR 1.83(a). Accordingly, withdrawal of the Examiner's objection is respectfully requested.

In view of the above remarks, it is respectfully submitted that this Application is in condition for allowance and such action is earnestly solicited. However, should the Examiner have any further point of objection, the Examiner is urged to contact the undersigned so that a mutual agreement with respect to claim limitations can be reached.
